# Dr. Borkar's Magic Touch Clinic

(Cosmetic, Plastic & Laser Surgery)

*"No tall claims, no gimmicks,  
only pure & proven  
medical treatment."*

## 'Magic Touch' an idea is born

The idea took root after seeing a spurt of new technologies being touted as the 'Answer-All' to problems faced by patients. Whereas the fact remains that each individual is unique and requires a customized approach tailored to suit his needs.

'Magic Touch' is a brain-child of Dr. A. S. Borkar, a U.K. returned Cosmetic Surgeon with more than 30 years of experience in the field. It is a clinic which provides a multi disciplinary approach to cosmetic or plastic surgical problems by clever combination of both 'New' and time proven 'Old' methods.

The essence of our approach is aptly described in our motto:

**" No tall claims, no gimmicks, only pure and proven medical treatment. "**
